### DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Applicant's arguments filed 10/09/2003 have been fully considered but they are not persuasive. See the explanations below.
3. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by WO 96/08535.

The disclosures of the cited prior art are as indicated in the previous Office Action. It is Applicants' position that the cited prior art "does not teach or suggest the use of the specific PHA copolymers recited in claim 1... Importantly, Applicants have discovered that the newer type of PHAs claimed in the present invention have superior properties compared to the conventional PHAs disclosed in the WO 96/08535 reference. In particular, the PHAs claimed herein can be melt processed at much lower temperatures than that of conventional PHAs and thus are less susceptible to thermal degradation during processing".

In essence, it is the Applicants' position that the PHA claimed are different from those disclosed by the prior art. Applicants argue that the claimed PHAs are different because they have lower melt processing temperatures. However, the claims do not recited melt processing temperatures, and the PHA copolymers claimed herein include PHBV, which are also disclosed by the cited prior art as typical of the PHA copolymers contemplated. Thus, it is the Examiner's position that Applicants' arguments do not distinguish over the PHAs disclosed by the cited prior art.

4. Claims 1, 3-6, and 15 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by JP 10147653.

The disclosures of this prior art is as indicated in the previous action. Applicants' arguments are as indicated above. Again, it is the Examiner's position that Applicants have not distinguished over the PHAs disclosed by the prior art.

5. Claims 1-5 rejected under 35 U.S.C. 103(a) as being unpatentable over EPA 0,753,539.

Applicants' arguments have been noted, said arguments are the same as indicated above. For the explanations indicated above, Applicants' arguments do not distinguish over the cited prior art.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
